

Emini Dow Jones *March contract*

Recap

Emini Dow Jones makes a remarkable & unexpected recovery through resistance at 25000/25020 & 25200/230.

We have now recovered 78.6% of the losses from the February high to March low in just a week...despite the announcement of trade tariffs.

Daily Forecast - 12 March 2018

Emini Dow Jones meets 6 week trend line & the 78.6% Fibonacci resistance at 25465/475 so this is key to direction today. A break above 25500 however targets 25540, 25575 & 25675 before the February high at 25810/813.

Failure to beat key resistance at 25465/475 triggers profit taking to 25350/340 & minor support at 25290/280. If we continue lower look for good support at 25170/160. Longs need stops below 25100. Further losses target 25080 & support at 25000/24980.
