**Trends**

Week

Day

Short term

**Daily Forecast - 17 April 2018**

**Emini Dow Jones resistance at what is now 2 week trend line resistance at 24630/640, after it has held twice. A break higher meets very strong resistance at 24780/799. Try shorts with stops above 24900.**

**We are overbought now & do not forget we are in a short term correction/bear trend still. In overbought conditions risks are increasing to the downside. Holding below 24630/640 targets 24530/520 & support at 24480/470. On further losses look for better support at 24380/360. Longs need stops below 24300.**
