Today's Analysis

Dax longs at key support at 13870/830 target minor resistance at 13980/14000 (hit & holding this morning). Above here retests 14120/125 & a break higher targets 14300/320. Further gains look for 14385/395 then 17460/490.

Below 13800 meets strong support at 13710/680. A break below 13660 risks a slide to 13600/570, perhaps as far as a buying opportunity at 13480/450, with stops below 13410.
