## Today's Analysis

Emini Dow Jones bounces back to 31000/045 before testing the all time high at 31148. Despite severely overbought conditions, further gains in the bull trend target 31250/350 & 31570/630 this week.

A break below 30930 risks a slide to a buying opportunity at 30700/660 with stops below 30600. Next buying opportunity at 30400/360. Longs need stops below 30300.

Nasdaq best support at 12820/780. Try longs with stops below 12720. A break below targets a buying opportunity at 12630/600 with stops below 12550.

Longs initially target 12970/980 then 13030/060 before a retest of the all time high at 13115/125. A break higher targets 13200/220 & 13280/300. Above look for 13470/490.
