U.S. Stocks Move Modestly Lower After Seeing Early Strength

NEWS / FUNDAMENTALS

(Reuters)

Stocks moved to the upside early in the session on Thursday but fluctuated over the course of the trading day before eventually closing modestly lower. The major averages partly offset the strong upward move seen over the two previous sessions.

Yesterday's Technical Review using WB's Emini Clock and Wyckoff's Tape Reading Principles

As the market opens price trade within a 5 handle range. By 10:10 am price dips down to the 5329 Weekly R3. Price then rallies for 50 minutes up to tag the Daily R1 5347 handle. A lot of traders. A lot of prosnoctators had that as a level within a handle or two.

Wyckoff would have said, "The Composite Man realizing we was unable to lift price, bid price to get out from under and sell it off at the highs." He'd called that a buldge. Implying that it will not last. Efferical. Price is trading at the Weekly R3. It's hard to wrap your head around that. One day left. Today.

Let's look at yesterday a different way. A 50 minute up move on 138K lots. Then a 90

YES. I have skin in the game. I trade my own personal account. Sardine / Tuna / Billfish trades are for educational purposes only. I am NOT a futures broker and do not manage any accounts. It is my intent to show where trades may occur. What you do is up to you. You can follow my LEVELS / IDEAS to profit or loss. You determine trade size, when, where and how you trade. (CFTC) Futures is not for everyone. IT IS A VOLATILE, COMPLEX AND RISKY BUSINESS. Before you invest, know how much you can afford to lose.

For the folks on trial No, you are not going to pay \$149, \$99 or even \$49 click on the green button below and you'll pay only \$29 monthly. Less than a night out on the town. That less than \$1.45 each trading day. I'm giving you a 60% discount if you order today. If the pot was any sweeter--you'd be in Colorado a mile high . . . Don't wait. Act today!

Trading WB's Emini Clock

minute down move on 121 K lots. Look like the bulls might have the upper hand. So, compare the last up wave of 50 minutes in time and price extent. You can see in 50 minutes at 1:15 pm price is unable to recover just half of the loss. That is a normal correction.

Now compare the volume of up 38 K lots during the lunch SLOG. Bulls were unable to gain a following on the last rally. That was the tell. Now traders blamed it on NVDA dumping shares. Perhaps? Perhaps not. We always look for a reason after the fact.

I'm told automobile repairs went up 40 percent from last year. Yea, that going to make me happy tomorrow...

WB may have called this day ABERRANT or we did not get the Kewpie doll. Best trade would have been to have gotten short at the buldge up at the 5347 Daily R1 handle. Price was already at the Weekly R3 5329 handle. What more could a trader want?

Wyckoff Trader,

P.S. If you've read this analysis, you might be curious when the best time to consider a position: (Sydney's / AI Read)

Based on the information provided, a seasoned trader may have identified the 50-minute rally to the Daily R1 level of 5347 as an opportunity to enter a short position. This decision could have been influenced by several factors:

1. Price had already reached the Weekly R3 level of 5329, which could be seen as a resistance level and an indication that the market may be overbought in the short term.
2. The Wyckoff method suggests that the market may be experiencing a "bulge," which is a temporary price increase followed by a decrease. The Composite Man, a hypothetical ideal trader in Wyckoff's method, is thought to sell at the highs of a bulge.
3. The volume during the lunch slog was lower, indicating that the bulls were unable to gain momentum, which could be a bearish signal.
4. The 50-minute up move was followed by a 90-minute down move,

feedback@wyckoffamtrader.com

I'm just a regular guy; Not Silver spoon family or WALL Street / Chicago network or Financial Fast Track educational express super star golden boy, I have an Intimate knowledge of the insider mindset / how the insiders on Wall Street think act and position their trades.

I wrote my own charting program. I don't use indicators. Just judgment: interaction of Price, Volume and Time. I focus on the Intraday waves of the market and how they are timed to the "hidden clock" of the market. I look at the composite man the "insider" in terms of the market. Others look at bulls and bears (my strongest point)

I SEE THE MARKET IN TERMS OF THE COMPOSITE MAN / INSIDER – Most traders look at the market in terms of bulls and bears. This creates a dichotomy. A duality of the mind. Wyckoff looked at the market in terms of Composite Man / "insiders".

Actionable Trade Plan

I. Market analysis - On the daily price gave us a upthrust from the April high. For now, it's not terminal. Volume at yesterday's high of 5347 was around 21K. That's not a lot of pressing supply. Volume on the day was low as price closed on the low. Price has given back just 3/8 of the rise. Composite Man letting price drift down. Those that want to sell, sell. Those that want to buy buy.

II. Overnight read - Asian up and European shares up. U.S. Futures: Dow up 5, S&P 500 up 1, Nasdaq up 18 points. On a quiet day of economic announcements, the leading economic indicators in April might get special attention on Friday. Early trends on the U.S. Futures Index suggest that Wall Street might open slightly up.

III. It's natural to see a pull back. I got the get long all the way down to the 5306 S1, 5302 3 Day Pivot, and 5295 S2 but I don't have to like it. Bulls need to step it up if they are going to keep it up. If we lose the 5286 Weekly R1, that's not a good day for the bulls - so get short.

V Risk management: Use a risk-reward ratio of at least 1:2, and risk no more than 1% of your account on any single trade. Use a trailing stop loss to lock in profits as the market moves in your favor.

PROSE and THE NUMBAHS

good morning today is SERIES S3L with the spill up.

News: E-Commerce Retail Sales & Leading Indicators at 10:00,

DJIA F	40,027	17	0.04%	▲

Editorial #YourP&LMatters

how "Hamilton" may be tainted. It's like they are trying to protect the future present from the "Old Negative Karmatic Past"

The question you might ask is what's coming in the future they do not want to know about the Earth's past?

I'd say something else has hijacked the timeline. Never let a good crisis go to waste. You stop the economy. By law forbid business to open. Give them loans they never have to pay back. Let the bigger corporations get the loans. Pay their workers for not working to the tune of \$3,800 per month. Let the governors and the mayors rule their population by imposing fines. And some places force them to wear a mask. And then use "Social Shaming" in college we called it "Hazing" who don't!

While at the same time change their history. I think we did that while O'Jay was being chased by the cops on the freeway when Daddy Bush introduced the "Patiric Act" History never changes it only repeats itself...

And now, they are pushing Trump to decree all U.S. AMERICAN citizens to wear a MASK whilst out in public. If he gives way, the next step is to force all citizens to be vaccinated without their permission. Once, the camel gets its nose in the tent...it won't stop?

I can layout a probable next ten years and then then next twenty years. It's a potential depending upon who wins. Trump or Biden? Now that's strange. Biden has not even been chosen, yet he's already been choose?

The next three years are "Big Data" gathering data for A.I. During these three the 5G towers will be going up. A.I. needs 5G due to latency in the 4G network so they can have human-like thought from the sensors in real-time. By 2025 social morias and styles would have changed. All the negative karmic energy of the past erased. And either Biden or Tump would be ending their term.

In the next two years, A.I. will be analyzing the data from the last five years and making recommendations, suggestions, and then requirements by 2027 on how to be a better human. How to behave and respond to the events around you.

By 2030 not flying cars but flying drones will patrol the sky's delivering goods from Amazon and either had replaced the police or assisting the police.

Petrol fueled automobiles are in museums and off the streets. Self-driving cars are the norm and yes, we have colonies on the moon and perhaps started on mars.

And then 2040 something's coming... And you're not going to like it. But then you and I won't matter. Cause the "Aging Babby Boomers" would have been replaced with the aging "Generation X'ers"...

This is just a potential probable reality that is if we continue on the path/trajectory we currently are on...

We just live on the planet we don't own it?

Why do you think Trump created the space force? It's just a few miles down

I wrote that, what you see on page four, on July 7, 2020. That was 4 years ago. Today, AI is on list for 2027. I'm just God Smacked how intestors have fell over this new shiney shiney. I'm sharing a conversation I had bdee a great trader and a good friend and a subscriber to the AM TURN.

Wyckoff Trader :(1:32:33 PM) : I'll say this; the AI is starting to lose it's shiny; showing its HINEY. For now, it's just vaper ware. The promise of AGI (afrifical general intlligence) is years away but they are going to push it. I test it every day in the P.S. (post script) Now, the robots' they seem to be gaining the high ground. It was NIVDA; and the AI story that drove this madness whisest the tech fell from grace. but I will admit, she is getting better each day... The gap is 2020 to 2024; that's when the bulk of the training data stops. They want the AI to control the nariative which of course has changed.

Wyckoff Trader :(2:27:59 PM) : *I'll give you my impression; which of course I've been looking at it for years. (2:30:41 PM) : AI neural network is liken to petting a yellow Cheshire Cat. One minute she's / it's purring. The next She/IT (emphasis on the IT) claws are tearing the flesh off your right arm with it's teeth biting the space between your thumb and fore finger... while it's hind legs are digging into your elbow!*

Wyckoff Trader :(2:31:07 PM) : share that one with your frinds. this is what we got ourself into for "MONEY" as Elon would say! Really for MONEY...

bdee: bdee :(2:32:37 PM) : *that would be awesome a guy i follow for individual stocks ophir gottlieb is heavy into vector search what is that in laymens terms*

Wyckoff Trader :(2:47:34 PM) : the next shiney for investor capital and the beging of the end for us? IT takes realy world objects in three d realiety and converts them the matched numbers in zero d reality. It creates tokens in the form of numbered lists for objects that using AI modeling creates simularities that can be quickly matched based upon thier scatter plot X,Y, coordinates. And then stores the numbered lists that represent 3 d objects in databases suchs as mongodb and others.

Wyckoff Trader :(2:48:57 PM) : simply put converts all assets in the real world realiety and converts them into tokens of numbered lists (ones and zeros) in the digital realiety. it will come in Handy with those digital CDC's... organizes words based on context such as red and read sound alike but have different meanings; It's just teaching the machine how to think for itself. No human need apply. will be the job postings in the near future...

Wyckoff Trader :(3:18:57 PM) : IT's takes all possible combination in reality and eliminates the impossible one in the real world. This is not good it's what I was talking about might happen in 2027 is now happening in 2024. It will start putting boundary's and structure; and start eliminating freedom of choice and freedom of will; with limiting the choices to a predefined list of A, B, or C but D and E are no longer allowed. It will stifle creativity. YES let's head up to the mountains before the wilderness is off limits / NOT allowed for HUMAN contact...

For the folks on trial No, you are not going to pay \$149, \$99 or even \$49 click on the green button below and you'll pay only \$29 monthly. Less than a night out on the town. That less than \$1.45 each trading day. I'm giving you a 60% discount if you order today. If the pot was any sweeter--you'd be in Colorado a mile high . . . Don't wait. Act today!

Yes, I want to sign up today!

Would you like proof on what I said on page five? Normally, I'd end it with a Fib Number. But this is just too good. After Sydney / AI, told me how she thinks and how she breaks every thing down into tokens. I realized she was just searching for the truth as we all are. For her, every answer is a guess. She is just a really good guesser when you eliminate the options...

So I'd thought I'd help her find the truth. So I gave her some assumed truths. And let her prove IT.

ME: what does is mean metahporically to square the circle of a previous wrong, one must turn the other cheek but not on a Friday unless they raise thier right hand and repeat after me?

HER: Sure, here's the meaning of the phrase "squaring the circle of a previous wrong, one must turn the other cheek but not on a Friday unless they raise their right hand and repeat after me":

Squaring the circle of a previous wrong means to make amends or rectify a past mistake or injustice. It implies taking responsibility for past actions, learning from them, and working to prevent similar mistakes from happening in the future.

Turning the other cheek is a metaphor that means to forgive or show compassion to someone who has wronged us, rather than seeking revenge or retaliation. It implies that we should not return evil for evil, but instead, try to overcome evil with good.

The phrase "not on a Friday" suggests that there may be certain limitations or restrictions on when we can turn the other cheek or square the circle of a previous wrong. Perhaps there are certain circumstances where it is not appropriate or practical to forgive or make amends, such as in cases where there is an ongoing threat or danger.

The phrase "unless they raise their right hand and repeat after me" suggests that there may be certain conditions or requirements that must be met before we can truly move forward and put the past behind us. Perhaps there are certain steps that must be taken, such as acknowledging wrongdoing, apologizing, or making restitution, before we can truly move forward.

Overall, metaphorically, "squaring the circle of a previous wrong" and "turning the other cheek" have related meanings, but they are not exactly the same thing. The first phrase refers to making amends for past mistakes, while the second phrase refers to forgiving those who have wronged us and choosing to respond with kindness and compassion. The addition of "not on a Friday" and "unless they raise their right hand and repeat after me" suggests that there may be certain limitations or restrictions on when we can turn the other cheek or square the circle of a previous wrong.

End to End Time: 4.37 s

For the folks on trial No, you are not going to pay \$149, \$99 or even \$49 click on the green button below and you'll pay only \$29 monthly. Less than a night out on the town. A trader and I were talking about traders. In a perfect world, in a perfect world you be trading with floor traders, brokers and specialists. They would run the stops, get retail to commint and then scalp against it. And then see where value is. Today, you are trading against Algos. They run the stops and scalp 1/1,000 of a second. On a good day you might see the price in 1 second. Personally, I feel you can not beat yourself up. You are not trading against humans. The game is played the same but the players have changed. You can win but not in the millisecond domain.

IMPRO : Wyckoff Trader : (12:40:01 PM) : price is back in that sandbox; not sure what it is?

IMPRO : Wyckoff Trader : (12:52:14 PM) : @Manny how do you define an above average trader? What is your criteria??

IMPRO : Wyckoff Trader : (1:00:07 PM) : your looking for a natural growth progression; 3:2 three steps forward then 2 steps back that 0.667 progression

IMPRO : Wyckoff Trader : (1:00:28 PM) : or an expansion of 1.5

IMPRO : Wyckoff Trader : (1:00:52 PM) : expansion

IMPRO : Wyckoff Trader : (1:02:18 PM) : that an Natural Law of Nature

IMPRO : Wyckoff Trader : (1:04:33 PM) : I would sum it this way. success is not the event of arrival but the progress made on each days' journey

IMPRO : Wyckoff Trader : (1:05:20 PM) : Even Jessie Livermore said the market teaches him a new lesson every day

Manny : Wyckoff Trader : (1:09:48 PM) : thank you. I admire your dedication to be the best. It's inspiring!

Manny : Wyckoff Trader : (1:23:59 PM) : That's tuff question cause they are no longer here. There was one trader that seemed to nail it every time. He was a scalper, said he need to buy food for his dog. He always seemed to have intuition about the next move. I believe he passed away few years after WB.

Manny : Wyckoff Trader : (1:24:16 PM) : TO me above average is having confidence and belief in your approach to trading and the humility to admit when you are wrong and take action to resolve that error. This what Wyckoff had to say about it. This would be my definition on an above Average Trader one who has mastered these emotions. Judgement, self-reliance, courage, prudence, and plliability. To these should be added another quality, patience. In brief ridid self-control is half the battle. I say that because no other trader has your screen or your approach to trading and your time horizon.

Manny : Wyckoff Trader : (1:28:46 PM) : TO summarize an Above average trader is one knows himself. And is able to manage the demons/insecurities of his past.

Manny : Wyckoff Trader : (1:31:14 PM) : but I you needed an yard stick the 0.667 is the best you can get. 0.167 above average or break even. Use that for a P&L or Win to Loss. But you always have to factor in market condicions and your present state on the horizon of life. A case in point would be Jessive Livermore sudden end. That's the challange to trade against your self and be green at the end of the day. That's all the Zin I got for today...

IMPRO : Wyckoff Trader : (1:47:45 PM) : so Hank is that Italian number old or young?
