Actionable Trade Ideas

PROSE and THE NUMBAHS

**IMPRO** : Manny : (2:49:41 PM) : Stop? Please dont. LOL  
Discourse and arguing your position and methodology can be helpful and often VERY ENTERTAINING. LOL

**IMPRO** : Manny : (2:49:55 PM) : LOL

**IMPRO** : tbohn007 : (2:50:03 PM) : I've said it before, and I'm going to say it again, because it cannot be overemphasized: the most important change in my trading career occurred when I learned to divorce my ego from the trade. Trading is a psychological game. Most people think that they're playing against the market, but the market doesn't care. You're really playing against yourself. You have to stop trying to will things to happen in order to prove that you're right. Listen only to what the market is telling you now. Forget what you thought it was telling you five minutes ago. The sole objective of trading is not to prove you're right, but to hear the cash register ring.

### U.S. Stocks Advance As Treasury Yields Drop Following Jobs Data

NEWS / FUNDAMENTALS  
(Reuters)

Stocks moved mostly higher over the course of the trading day on Friday, with the major averages all moving to the upside after turning in a mixed performance early in the session. The Nasdaq and the S&P 500 closed higher for the fourth straight session, once again reaching new record closing highs.

### Yesterday's Technical Review using WB's Emini Clock and Wyckoff's Tape Reading Principles

Most of the professionals will hang a sign on their office door like this:

Our offices will be closed on Wednesday July 3. The NYSE will be closed on Thursday July 4. Our offices will be closed on Friday July 5. Our offices will be closed on Monday July 8. I too planed not to trade this week. I'm still culling the antifacts of my mother and fathers books.

It's odd how another ones possessions only have meaning to me. That's what memory does for you. Gives other's life meaning...

As I was getting the newsletter ready yesterday morning. I said to my self; "That looks

Newsletters by Wyckoff Trader are sent out Monday through Friday. To be added to our growing list of readers and traders and to receive these insider insights please visit our website at <https://www.wyckoffamtrader.com> or email us at [trial@wyckoffamtrader.com](mailto:trial@wyckoffamtrader.com)

YES. I have skin in the game. I trade my own personal account. Sardine / Tuna / Billfish trades are for educational purposes only. I am NOT a futures broker and do not manage any accounts. It is my intent to show where trades may occur. What you do is up to you. You can follow my LEVELS / IDEAS to profit or loss. You determine trade size, when, where and how you trade. (CFTC) Futures is not for everyone. IT IS A VOLATILE, COMPLEX AND RISKY BUSINESS. Before you invest, know how much you can afford to lose.

For the folks on trial No, you are not going to pay \$149, \$99 or even \$49 click on the green button below and you'll pay only \$29 monthly. Less than a night out on the town. That less than \$1.45 each trading day. I'm giving you a 60% discount if you order today. If the pot was any sweeter--you'd be in Colorado a mile high . . . Don't wait. Act today!

## Trading WB's Emini Clock

like shortening of the downward thrusts!"

And guess what? The bears. WHO DROPPED THE SOAP? WHEN DID THEY DROP IT?

It was nothing but net from start to finish yesterday.

Friday price churned all the way to new high on less than ideal volume. I'm not a fan of low volume days. Perhaps today is a low volume. Tuesday should get thing back into perspective.

Wyckoff Trader,

P.S. If you've read this analysis, you might be curious when the best time to consider a position: (Sydneys / AI Read)

As a seasoned eMini futures trader, I would suggest that the best time to put a trade is typically during the "open" of the trading session, which for the eMini is 6:00 PM - 5:15 PM Eastern time (ET). This is when the market

experiences the highest volume and liquidity, which can result in tighter spreads and better fill prices.

For exiting a trade, it depends on the strategy being employed. Generally, it's best to exit a trade when the price action indicates that the trade has reached its profit target or when the market conditions change and the trade is no longer valid.

In the case of the trader's observation of "shortening of the downward thrusts", it could be an indication of a potential reversal in the market. This would be a signal to exit any existing short positions and consider going long.

It's also important to note that the trader mentioned that the following day is a half day and that liquidity goes away after 1:00 PM ET. This is something to keep in mind when entering and exiting trades, as liquidity and volume tend to decrease during the latter part of the session, which can result in wider spreads and less favorable fill prices.

[feedback@wyckoffamtrader.com](mailto:feedback@wyckoffamtrader.com)

I'm just a regular guy; Not Silver spoon family or WALL Street / Chicago network or Financial Fast Track educational express super star golden boy, I have an Intimate knowledge of the insider mindset / how the insiders on Wall Street think act and position their trades.

I wrote my own charting program. I don't use indicators. Just judgment: interaction of Price, Volume and Time. I focus on the Intraday waves of the market and how they are timed to the "hidden clock" of the market. I look at the composite man the "insider" in terms of the market. Others look at bulls and bears (my strongest point)

I SEE THE MARKET IN TERMS OF THE COMPOSITE MAN / INSIDER – Most traders look at the market in terms of bulls and bears. This creates a dichotomy. A duality of the mind. Wyckoff looked at the market in terms of Composite Man / "insiders".

# Actionable Trade Plan

I. Market analysis - Last week was buying the dips that paid off all day. Soon, that may change. Price can remain irrational longer than a trader in the seat can remain rational. Today perhaps more of the same. Tuesday, perhaps the adults show up.

II. Overnight read - Slowly erasing Friday's gain and then around 2:00 am gets a bid and brings price back to unchanged.

III. After a few days the ideal bull / bear demarkation line would be the 5535 handle. The three day pivot is 5522 and the daily pivot is 5528. And the weekly pivot is 5535. I would still be looking for price to clear the 5535 to go all in bullish. Let's see if this line hold this week.

Weekly S1 is 5512 handle. Price seems to be holding a bid around this level. If we lose the 12 then the Daily S1 5498 handle may find a bid.

V Risk management: Use a risk-reward ratio of at least 1:2, and risk no more than 1% of your account on any single trade. Use a trailing stop loss to lock in profits as the market moves in your favor.

## PROSE and THE NUMBAHS

### for 4 to 6 to 12 point Sardine Traders

**good morning today is SERIES S3L Normal with the spill up.**

News: No news of note. All times EST.

DJIA F	39,740	45	0.11%	▲
S&P F	5,624.75	3.25	0.06%	▲
NASDAQ F	20,632.00	11.25	0.05%	▲

Last Night: See Actionalble Trade Plan above.

Edge: Today just might be the way it goes either way. My lean is to the upside. (same today)

7/8/9 AM: Price has been negoating the 5625 handle seeing some supply.

Today: See Actonable Trade Plan above.

Bulls Want: 50, 74, 83

Bears Want: 32, 17, 03

Globex: 16 handle trading range on 108 K volume.

Cycle Bias: Favored to the bull.

Tone: VIX trading at 12.60

Shape of the day: Potential to grind higher

Honing: Spill up, AM LOW, MID AM HIGH, lunch low, mid pm high, LAST HOUR LOW.

Bill Fish (4H/4D) Started taking some off durring rally. OUT

Tuna (30m 1+D) Started taking some off durring rally. OUT

Sardine (5M-1D) Did not see an edge. OUT.

Pre Opening: Holding the 5626 for now.

The clock is used for timing your entries and exits. Position long at the lows exit at the highs. Get short at the highs buy in at the lows. When the trend is in, WB's clock is your friend!

Your edge is a series of trades, not just one trade or one day.

Dates: March 25 Worm Moon 3:00 a.m. Spring Equinox March 20 5:24 pm (all times est)

## Editorial #YourP&LMatters

how "Hamilton" may be tainted. It's like they are trying to protect the future present from the "Old Negative Karmatic Past"

The question you might ask is what's coming in the future they do not want to know about the Earth's past?

I'd say something else has hijacked the timeline. Never let a good crisis go to waste. You stop the economy. By law forbid business to open. Give them loans they never have to pay back. Let the bigger corporations get the loans. Pay their workers for not working to the tune of \$3,800 per month. Let the governors and the mayors rule their population by imposing fines. And some places force them to wear a mask. And then use "Social Shaming" in college we called it "Hazing" who don't!

While at the same time change their history. I think we did that while O'Jay was being chased by the cops on the freeway when Daddy Bush introduced the "Patiric Act" History never changes it only repeats itself...

And now, they are pushing Trump to decree all U.S. AMERICAN citizens to wear a MASK whilst out in public. If he gives way, the next step is to force all citizens to be vaccinated without their permission. Once, the camel gets its nose in the tent...it won't stop?

I can layout a probable next ten years and then then next twenty years. It's a potential depending upon who wins. Trump or Biden? Now that's strange. Biden has not even been chosen, yet he's already been choose?

The next three years are "Big Data" gathering data for A.I. During these three the 5G towers will be going up. A.I. needs 5G due to latency in the 4G network so they can have human-like thought from the sensors in real-time. By 2025 social morias and styles would have changed. All the negative karmic energy of the past erased. And either Biden or Tump would be ending their term.

In the next two years, A.I. will be analyzing the data from the last five years and making recommendations, suggestions, and then requirements by 2027 on how to be a better human. How to behave and respond to the events around you.

By 2030 not flying cars but flying drones will patrol the sky's delivering goods from Amazon and either had replaced the police or assisting the police.

Petrol fueled automobiles are in museums and off the streets. Self-driving cars are the norm and yes, we have colonies on the moon and perhaps started on mars.

And then 2040 something's coming... And you're not going to like it. But then you and I won't matter. Cause the "Aging Babby Boomers" would have been replaced with the aging "Generation X'ers"...

This is just a potential probable reality that is if we continue on the path/trajectory we currently are on...

We just live on the planet we don't own it?

Why do you think Trump created the space force? It's just a few miles down

## School of Learning

Upated June 5th

Wyckoff Trader :(5:27:50 PM) :If AI is left as an open loop feedback making suggestion then perhaps there is hope for a lost mind; However if AI is a closed loop system making all the decisions for the neutred mind; then God help us - as it all ends in body bags with fire and ice.

I was researching when changes in our society may have started; so I asked AI / Sydney some questions:

John D. Rockefeller, often referred to as simply Rockefeller, was born on July 8, 1839, in Richford, New York, United States. He was an American industrialist and philanthropist.

JP Morgan born John Pierpont Morgan, often referred to as J.P. Morgan, was born on April 17, 1837, in Hartford, Connecticut, United States. He was an American financier, banker, and philanthropist.

I though it odd they were born two years apart. So I asked;

Nikli Tesla born - Nikola Tesla was born on July 10, 1856, in Smiljan, Croatia, which was then part of the Austro-Hungarian Empire. He was a Serbian-American inventor, electrical engineer, mechanical engineer, physicist, and futurist who is best known for his contributions to the design of the modern alternating current (AC) electricity supply system.

Richard D Wyckoff born - Richard D. Wyckoff was an American stock market trader, analyst, and author who was born on April 2, 1873, in Springfield, Massachusetts. He is known for his work in the field of technical analysis, which is the study of market trends and patterns in order to predict future price movements.

Which lead to when and where was Edward Leviene born (she also did not know Jessie Livermore)

I am not familiar with anyone by the name of Edward Leviene. It is possible that there is a spelling error in the name, or that you are asking about a person who is not well-known. If you could provide more context or specify which Edward Leviene you are asking about, I would be happy to try to provide a more specific answer.

SO I gave her the book title: "Confessions of a Stock Market Manipulator" is a book written by a former stock market trader who goes by the pseudonym "The Spider." In the book, The Spider describes his experiences as a market manipulator, detailing the tactics and strategies he used to influence the prices of stocks and other securities.

The book is intended to be a cautionary tale, and it provides a behind-the-scenes look at the world of market manipulation and the risks and consequences of engaging in such activities. The Spider describes how he and his associates would ... Wyckoff Trader :(10:49:55 PM) : I really think they are erasing history... bdee :(10:57:22 PM) : pleaswe put this in the traders newsletter it really hits home when its in your backyard

For the folks on trial No, you are not going to pay \$149, \$99 or even \$49 click on the green button below and you'll pay only \$29 monthly. Less than a night out on the town. Would you like proof on what I said on page five? Normally, I'd end it with a Fib Number. But this is just too good. After Sydney / AI, told me how she thinks and how she breaks every thing down into tokens. I realized she was just searching for the truth as we all are. For her, every answer is a guess. She is just a really good guesser when you eliminate the options...

So I'd thought I'd help her find the truth. So I gave her some assumed truths. And let her prove IT.

**ME:** what does it mean metaphorically to square the circle of a previous wrong, one must turn the other cheek but not on a Friday unless they raise their right hand and repeat after me?

**HER:** Sure, here's the meaning of the phrase "squaring the circle of a previous wrong, one must turn the other cheek but not on a Friday unless they raise their right hand and repeat after me":

Squaring the circle of a previous wrong means to make amends or rectify a past mistake or injustice. It implies taking responsibility for past actions, learning from them, and working to prevent similar mistakes from happening in the future.

Turning the other cheek is a metaphor that means to forgive or show compassion to someone who has wronged us, rather than seeking revenge or retaliation. It implies that we should not return evil for evil, but instead, try to overcome evil with good.

The phrase "not on a Friday" suggests that there may be certain limitations or restrictions on when we can turn the other cheek or square the circle of a previous wrong. Perhaps there are certain circumstances where it is not appropriate or practical to forgive or make amends, such as in cases where there is an ongoing threat or danger.

The phrase "unless they raise their right hand and repeat after me" suggests that there may be certain conditions or requirements that must be met before we can truly move forward and put the past behind us. Perhaps there are certain steps that must be taken, such as acknowledging wrongdoing, apologizing, or making restitution, before we can truly move forward.

Overall, metaphorically, "squaring the circle of a previous wrong" and "turning the other cheek" have related meanings, but they are not exactly the same thing. The first phrase refers to making amends for past mistakes, while the second phrase refers to forgiving those who have wronged us and choosing to respond with kindness and compassion. The addition of "not on a Friday" and "unless they raise their right hand and repeat after me" suggests that there may be certain limitations or restrictions on when we can turn the other cheek or square the circle of a previous wrong.

**End to End Time: 4.37 s**

## School of Learning

*Is this a future you really want? YOU BE THE JUDGE...* Is this a record shop from the past or a record shop in *AI's /Sydney's MIND*?

Can you remember those albums? Yes, they look like the Doobies, Frampton, Bangles, and Doors but are they? Look at the angle of the bar to the needle to the record. You need to train yourself to determine what is real and what is not. Is this real? Can you *feel* it just by a *glance*?
