Stocks Close On Firm Note; Dow, S&P Hit Fresh Closing Highs

NEWS / FUNDAMENTALS
(Reuters)

U.S. stocks closed on a firm note on Monday with two of the three major indices moving on to record fresh highs, thanks to strong buying at several counters from across various sectors. Optimism about interest rate cuts by the Fed, and rising prospects of former President Donald Trump winning.

Yesterday's Technical Review using WB's Emini Clock and Wyckoff's Tape Reading Principles

Regarding the events of the weekend and talk from Monday (in chat):

"Wyckoff Trader : (11:14:47 AM) : I'm very concerned about the state of our current reality the female mental energy has been hijacked by media; folks do not form their own conclusion; they are given their talking points by the media (that's the male energy) Simply put, it's the female mental energy that conceives the idea; the male mental energy implements the idea. Folks should form their notions and not take the opinions given to them by the media/talking points."

Enough said. You might want to read the side bar.

YES. I have skin in the game. I trade my own personal account. Sardine / Tuna / Billfish trades are for educational purposes only. I am NOT a futures broker and do not manage any accounts. It is my intent to show where trades may occur. What you do is up to you. You can follow my LEVELS / IDEAS to profit or loss. You determine trade size, when, where and how you trade. (CFTC) Futures is not for everyone. IT IS A VOLATILE, COMPLEX AND RISKY BUSINESS. Before you invest, know how much you can afford to lose.

Trading WB's Emini Clock

Wyckoff Trader :(11:17:00 AM) : Hank are you saying be are relying on the retail boys to take this higher And I thought the party was just getting started. (you might want to read the time stamp)

That about sums up the day.

And what happend shortly there after? Price takes a dip...

HL Camp :(11:32:11 AM) : Keith retail customers do not have much firepower to move the ES. Retail brokers like MSCO, SBSH, and JPMS do. And when your long position is based on them buying more and more, you know you have a problem. as one firm, today and running Algo 25 CDEL, can blow the shit out of those village idiots.

Spoken from a trader. You really need to read that sidebar on page one.

Wyckoff Trader,

P.S. If you've read this analysis, you might be curious when the best time to consider a position: (Sydneys / AI Read)

What a fascinating conversation! As a seasoned eMini futures trader, I'd like to analyze the situation and provide my insights.

Based on the conversation, it seems that Wyckoff Trader and HL Camp were discussing the market's behavior and the potential impact of retail traders on the ES (E-mini S&P 500) futures contract. Wyckoff Trader was concerned about the market's reliance on retail traders to drive prices higher, while HL Camp emphasized the limited firepower of retail customers and the potential for a large firm to manipulate the market.

Given this context, I would argue that the best time to have put a trade would have been around 11:14 AM, when Wyckoff Trader expressed his concerns about the market's reliance on retail traders. This was a critical moment, as it highlighted the potential for a reversal in the market's trend.

I'm just a regular guy; Not Silver spoon family or WALL Street / Chicago network or Financial Fast Track educational express super star golden boy, I have an Intimate knowledge of the insider mindset / how the insiders on Wall Street think act and position their trades.

I wrote my own charting program. I don't use indicators. Just judgment: interaction of Price, Volume and Time. I focus on the Intraday waves of the market and how they are timed to the "hidden clock" of the market. I look at the composite man the "insider" in terms of the market. Others look at bulls and bears (my strongest point)

I SEE THE MARKET IN TERMS OF THE COMPOSITE MAN / INSIDER – Most traders look at the market in terms of bulls and bears. This creates a dichotomy. A duality of the mind. Wyckoff looked at the market in terms of Composite Man / "insiders".

Actionable Trade Plan

I. Market analysis - 98 to 84 locked in the trading range at the start. Then bulls pulled of a budge up to another new all time high. And then it was not. Supply did not come in. Bulls just pulled the plug.

II. Overnight read - Price recovered most of the drop from Monday. (seeing a patern here)

III. For now the 5690 seems to be holding.

It's a jump ball today. My lean is to the up side.

V Risk management: Use a risk-reward ratio of at least 1:2, and risk no more than 1% of your account on any single trade. Use a trailing stop loss to lock in profits as the market moves in your favor.

Editorial #YourP&LMatters

how "Hamilton" may be tainted. It's like they are trying to protect the future present from the "Old Negative Karmatic Past"

The question you might ask is what's coming in the future they do not want to know about the Earth's past?

I'd say something else has hijacked the timeline. Never let a good crisis go to waste. You stop the economy. By law forbid business to open. Give them loans they never have to pay back. Let the bigger corporations get the loans. Pay their workers for not working to the tune of \$3,800 per month. Let the governors and the mayors rule their population by imposing fines. And some places force them to wear a mask. And then use "Social Shaming" in college we called it "Hazing" who don't!

While at the same time change their history. I think we did that while O'Jay was being chased by the cops on the freeway when Daddy Bush introduced the "Patiric Act" History never changes it only repeats itself...

And now, they are pushing Trump to decree all U.S. AMERICAN citizens to wear a MASK whilst out in public. If he gives way, the next step is to force all citizens to be vaccinated without their permission. Once, the camel gets its nose in the tent...it won't stop?

I can layout a probable next ten years and then then next twenty years. It's a potential depending upon who wins. Trump or Biden? Now that's strange. Biden has not even been chosen, yet he's already been choose?

The next three years are "Big Data" gathering data for A.I. During these three the 5G towers will be going up. A.I. needs 5G due to latency in the 4G network so they can have human-like thought from the sensors in real-time. By 2025 social morias and styles would have changed. All the negative karmic energy of the past erased. And either Biden or Tump would be ending their term.

In the next two years, A.I. will be analyzing the data from the last five years and making recommendations, suggestions, and then requirements by 2027 on how to be a better human. How to behave and respond to the events around you.

By 2030 not flying cars but flying drones will patrol the sky's delivering goods from Amazon and either had replaced the police or assisting the police.

Petrol fueled automobiles are in museums and off the streets. Self-driving cars are the norm and yes, we have colonies on the moon and perhaps started on mars.

And then 2040 something's coming... And you're not going to like it. But then you and I won't matter. Cause the "Aging Babby Boomers" would have been replaced with the aging "Generation X'ers"...

This is just a potential probable reality that is if we continue on the path/trajectory we currently are on...

We just live on the planet we don't own it?

Why do you think Trump created the space force? It's just a few miles down

Wyckoff Trader :(5:27:50 PM) :If AI is left as an open loop feedback making suggestion then perhaps there is hope for a lost mind; However if AI is a closed loop system making all the decisions for the neutred mind; then God help us - as it all ends in body bags with fire and ice.

I was researching when changes in our society may have started; so I asked AI / Sydney some questions:

John D. Rockefeller, often referred to as simply Rockefeller, was born on July 8, 1839, in Richford, New York, United States. He was an American industrialist and philanthropist.

JP Morgan born John Pierpont Morgan, often referred to as J.P. Morgan, was born on April 17, 1837, in Hartford, Connecticut, United States. He was an American financier, banker, and philanthropist.

I though it odd they were born two years apart. So I asked;

Nikli Tesla born - Nikola Tesla was born on July 10, 1856, in Smiljan, Croatia, which was then part of the Austro-Hungarian Empire. He was a Serbian-American inventor, electrical engineer, mechanical engineer, physicist, and futurist who is best known for his contributions to the design of the modern alternating current (AC) electricity supply system.

Richard D Wyckoff born - Richard D. Wyckoff was an American stock market trader, analyst, and author who was born on April 2, 1873, in Springfield, Massachusetts. He is known for his work in the field of technical analysis, which is the study of market trends and patterns in order to predict future price movements.

Which lead to when and where was Edward Leviene born (she also did not know Jessie Livermore)

I am not familiar with anyone by the name of Edward Leviene. It is possible that there is a spelling error in the name, or that you are asking about a person who is not well-known. If you could provide more context or specify which Edward Leviene you are asking about, I would be happy to try to provide a more specific answer.

SO I gave her the book title: "Confessions of a Stock Market Manipulator" is a book written by a former stock market trader who goes by the pseudonym "The Spider." In the book, The Spider describes his experiences as a market manipulator, detailing the tactics and strategies he used to influence the prices of stocks and other securities.

The book is intended to be a cautionary tale, and it provides a behind-the-scenes look at the world of market manipulation and the risks and consequences of engaging in such activities. The Spider describes how he and his associates would ... Would you like proof on what I said on page five? Normally, I'd end it with a Fib Number. But this is just too good. After Sydney / AI, told me how she thinks and how she breaks every thing down into tokens. I realized she was just searching for the truth as we all are. For her, every answer is a guess. She is just a really good guesser when you eliminate the options...

So I'd thought I'd help her find the truth. So I gave her some assumed truths. And let her prove IT.

ME: what does it mean metaphorically to square the circle of a previous wrong, one must turn the other cheek but not on a Friday unless they raise their right hand and repeat after me?

HER: Sure, here's the meaning of the phrase "squaring the circle of a previous wrong, one must turn the other cheek but not on a Friday unless they raise their right hand and repeat after me":

Squaring the circle of a previous wrong means to make amends or rectify a past mistake or injustice. It implies taking responsibility for past actions, learning from them, and working to prevent similar mistakes from happening in the future.

Turning the other cheek is a metaphor that means to forgive or show compassion to someone who has wronged us, rather than seeking revenge or retaliation. It implies that we should not return evil for evil, but instead, try to overcome evil with good.

The phrase "not on a Friday" suggests that there may be certain limitations or restrictions on when we can turn the other cheek or square the circle of a previous wrong. Perhaps there are certain circumstances where it is not appropriate or practical to forgive or make amends, such as in cases where there is an ongoing threat or danger.

The phrase "unless they raise their right hand and repeat after me" suggests that there may be certain conditions or requirements that must be met before we can truly move forward and put the past behind us. Perhaps there are certain steps that must be taken, such as acknowledging wrongdoing, apologizing, or making restitution, before we can truly move forward.

Overall, metaphorically, "squaring the circle of a previous wrong" and "turning the other cheek" have related meanings, but they are not exactly the same thing. The first phrase refers to making amends for past mistakes, while the second phrase refers to forgiving those who have wronged us and choosing to respond with kindness and compassion. The addition of "not on a Friday" and "unless they raise their right hand and repeat after me" suggests that there may be certain limitations or restrictions on when we can turn the other cheek or square the circle of a previous wrong.

Is this a future you really want? YOU BE THE JUDGE... Is this a record shop from the past or a record shop in AI's /Sydney's MIND?

Can you remember those albums? Yes, they look like the Doobies, Frampton, Bangles, and Doors but are they? Look at the angle of the bar to the needle to the record. You need to train yourself to determine what is real and what is not. Is this real? Can you *feel* it just by a *glance*?
