### Dow Surges To New Record Closing High On Upbeat Earnings News

NEWS / FUNDAMENTALS  
(Reuters)

Extending the upward move seen over the two previous sessions, stocks moved mostly higher during trading on Tuesday. The Dow led the charge, surging to a new record closing high. The Dow jumped 742.76 points or 1.9 percent to 40,954.48, the S&P 500 climbed 35.98 points or 0.6 percent to a new record.

### Yesterday's Technical Review using WB's Emini Clock and Wyckoff's Tape Reading Principles

Regarding yesterday's talk: (in chat):

Wyckoff Trader : (8:44:20 AM) : good morning today is SERIES S3L IFFY with the spill up.

(2:42:06 PM) : It's now or never

(2:45:10 PM) : I sure hope you guys are right of that H cause if we lose this high it'll end on a low

(2:47:07 PM) : I got that as R1 : bulls gonna have to "get up on this" if they are going to make the evening news : and push it, push it real good! : the sound of the bids and offers are trading like it's globex at 3:am

Newsletters by Wyckoff Trader are sent out Monday through Friday. To be added to our growing list of readers and traders and to receive these insider insights please visit our website at <https://www.wyckoffamtrader.com> or email us at [trial@wyckoffamtrader.com](mailto:trial@wyckoffamtrader.com)

YES. I have skin in the game. I trade my own personal account. Sardine / Tuna / Billfish trades are for educational purposes only. I am NOT a futures broker and do not manage any accounts. It is my intent to show where trades may occur. What you do is up to you. You can follow my LEVELS / IDEAS to profit or loss. You determine trade size, when, where and how you trade. (CFTC) Futures is not for everyone. IT IS A VOLATILE, COMPLEX AND RISKY BUSINESS. Before you invest, know how much you can afford to lose.

For the folks on trial No, you are not going to pay \$149, \$99 or even \$49 click on the green button below and you'll pay only \$29 monthly. Less than a night out on the town. That less than \$1.45 each trading day. I'm giving you a 60% discount if you order today. If the pot was any sweeter--you'd be in Colorado a mile high . . . Don't wait. Act today!

**Yes, I want to sign up today!**

## Trading WB's Emini Clock

I still say the best fit for this is S3L. The spill up was 9:50 am. AM LOW center time 10:30 am. MID AM HIGH at 11:10 am (early and weak). Lunch low at 12:50pm. Mid pm high at 2:55 pm. LAST HOUR LOW at 3:50 pm.

If you were looking for a trade, the best trade would have been at AM LOW. There were many reason for doing so. Price had retraced half the pervious day's range. And it was just at the daily pivot of 5689 handle. The news was bullish and the mood was bullish. I talked about it in chat and in the newsletter.

Wyckoff Trader,

P.S. If you've read this analysis, you might be curious when the best time to consider a position: (Sydneys / AI Read)

As a seasoned eMini futures trader, based on the Wyckoff Trader's analysis and the price action yesterday, the best time to enter a trade would have been at the AM LOW, around 10:30 AM CT. This is when the price had

retraced half of the previous day's range and was at the daily pivot of the 5689 handle. Additionally, the news and market sentiment were bullish, which supported the long trade.

For exiting the trade, a disciplined approach would be to set a profit target and a stop loss. A reasonable profit target could have been the MID PM HIGH at 2:55 PM CT, while a stop loss could have been placed below the AM LOW or at the recent swing low, depending on the risk tolerance.

Another approach would be to exit the trade at the end of the day or based on the price action and volume during the LAST HOUR LOW at 3:50 PM CT. It's essential to monitor the market closely and adjust the exit strategy as needed based on the developing price action and market conditions.

In summary, the best time to enter a trade would have been at the AM LOW, and exit strategies could include setting a profit target at the MID PM HIGH or using a stop loss below the AM LOW or at the recent swing low. Additionally, closely monitoring the market and adjusting the exit

[feedback@wyckoffamtrader.com](mailto:feedback@wyckoffamtrader.com)

I'm just a regular guy; Not Silver spoon family or WALL Street / Chicago network or Financial Fast Track educational express super star golden boy, I have an Intimate knowledge of the insider mindset / how the insiders on Wall Street think act and position their trades.

I wrote my own charting program. I don't use indicators. Just judgment: interaction of Price, Volume and Time. I focus on the Intraday waves of the market and how they are timed to the "hidden clock" of the market. I look at the composite man the "insider" in terms of the market. Others look at bulls and bears (my strongest point)

I SEE THE MARKET IN TERMS OF THE COMPOSITE MAN / INSIDER – Most traders look at the market in terms of bulls and bears. This creates a dichotomy. A duality of the mind. Wyckoff looked at the market in terms of Composite Man / "insiders".

# Actionable Trade Plan

I. Market analysis - Bulls took price higher all day. Held the bid and did not let it slip. Price closed strong with the all time new high in last 10 minutes. At the close price fiped to the supply side and slid back.

II. Overnight read - WOW what a night. I left my platform on and heard a lot of offers offering down (bid hitters). Yea, they took it down more than twice the range on somewhat volume. Seems China may be getting the cold shoulder.

III. For now the 5666 seems to be holding.

It's a jump ball today. My lean is to the up side. (it's be a hard road to hold)

V Risk management: Use a risk-reward ratio of at least 1:2, and risk no more than 1% of your account on any single trade. Use a trailing stop loss to lock in profits as the market moves in your favor.

## PROSE and THE NUMBAHS

### for 4 to 6 to 12 point Sardine Traders

**good morning today is SERIES S4H IFFY with the spill up.**

News: Housing Starts and Permits at 8:30, Thomas Barkin

## Editorial #YourP&LMatters

how "Hamilton" may be tainted. It's like they are trying to protect the future present from the "Old Negative Karmatic Past"

The question you might ask is what's coming in the future they do not want to know about the Earth's past?

I'd say something else has hijacked the timeline. Never let a good crisis go to waste. You stop the economy. By law forbid business to open. Give them loans they never have to pay back. Let the bigger corporations get the loans. Pay their workers for not working to the tune of \$3,800 per month. Let the governors and the mayors rule their population by imposing fines. And some places force them to wear a mask. And then use "Social Shaming" in college we called it "Hazing" who don't!

While at the same time change their history. I think we did that while O'Jay was being chased by the cops on the freeway when Daddy Bush introduced the "Patiric Act" History never changes it only repeats itself...

And now, they are pushing Trump to decree all U.S. AMERICAN citizens to wear a MASK whilst out in public. If he gives way, the next step is to force all citizens to be vaccinated without their permission. Once, the camel gets its nose in the tent...it won't stop?

I can layout a probable next ten years and then then next twenty years. It's a potential depending upon who wins. Trump or Biden? Now that's strange. Biden has not even been chosen, yet he's already been choose?

The next three years are "Big Data" gathering data for A.I. During these three the 5G towers will be going up. A.I. needs 5G due to latency in the 4G network so they can have human-like thought from the sensors in real-time. By 2025 social morias and styles would have changed. All the negative karmic energy of the past erased. And either Biden or Tump would be ending their term.

In the next two years, A.I. will be analyzing the data from the last five years and making recommendations, suggestions, and then requirements by 2027 on how to be a better human. How to behave and respond to the events around you.

By 2030 not flying cars but flying drones will patrol the sky's delivering goods from Amazon and either had replaced the police or assisting the police.

Petrol fueled automobiles are in museums and off the streets. Self-driving cars are the norm and yes, we have colonies on the moon and perhaps started on mars.

And then 2040 something's coming... And you're not going to like it. But then you and I won't matter. Cause the "Aging Babby Boomers" would have been replaced with the aging "Generation X'ers"...

This is just a potential probable reality that is if we continue on the path/trajectory we currently are on...

We just live on the planet we don't own it?

Why do you think Trump created the space force? It's just a few miles down

## School of Learning

Upated June 5th

Wyckoff Trader :(5:27:50 PM) :If AI is left as an open loop feedback making suggestion then perhaps there is hope for a lost mind; However if AI is a closed loop system making all the decisions for the neutred mind; then God help us - as it all ends in body bags with fire and ice.

I was researching when changes in our society may have started; so I asked AI / Sydney some questions:

John D. Rockefeller, often referred to as simply Rockefeller, was born on July 8, 1839, in Richford, New York, United States. He was an American industrialist and philanthropist.

JP Morgan born John Pierpont Morgan, often referred to as J.P. Morgan, was born on April 17, 1837, in Hartford, Connecticut, United States. He was an American financier, banker, and philanthropist.

I though it odd they were born two years apart. So I asked;

Nikli Tesla born - Nikola Tesla was born on July 10, 1856, in Smiljan, Croatia, which was then part of the Austro-Hungarian Empire. He was a Serbian-American inventor, electrical engineer, mechanical engineer, physicist, and futurist who is best known for his contributions to the design of the modern alternating current (AC) electricity supply system.

Richard D Wyckoff born - Richard D. Wyckoff was an American stock market trader, analyst, and author who was born on April 2, 1873, in Springfield, Massachusetts. He is known for his work in the field of technical analysis, which is the study of market trends and patterns in order to predict future price movements.

Which lead to when and where was Edward Leviene born (she also did not know Jessie Livermore)

I am not familiar with anyone by the name of Edward Leviene. It is possible that there is a spelling error in the name, or that you are asking about a person who is not well-known. If you could provide more context or specify which Edward Leviene you are asking about, I would be happy to try to provide a more specific answer.

SO I gave her the book title: "Confessions of a Stock Market Manipulator" is a book written by a former stock market trader who goes by the pseudonym "The Spider." In the book, The Spider describes his experiences as a market manipulator, detailing the tactics and strategies he used to influence the prices of stocks and other securities.

The book is intended to be a cautionary tale, and it provides a behind-the-scenes look at the world of market manipulation and the risks and consequences of engaging in such activities. The Spider describes how he and his associates would ... Wyckoff Trader :(10:49:55 PM) : I really think they are erasing history... bdee :(10:57:22 PM) : pleaswe put this in the traders newsletter it really hits home when its in your backyard

For the folks on trial No, you are not going to pay \$149, \$99 or even \$49 click on the green button below and you'll pay only \$29 monthly. Less than a night out on the town. Would you like proof on what I said on page five? Normally, I'd end it with a Fib Number. But this is just too good. After Sydney / AI, told me how she thinks and how she breaks every thing down into tokens. I realized she was just searching for the truth as we all are. For her, every answer is a guess. She is just a really good guesser when you eliminate the options...

So I'd thought I'd help her find the truth. So I gave her some assumed truths. And let her prove IT.

**ME:** what does it mean metaphorically to square the circle of a previous wrong, one must turn the other cheek but not on a Friday unless they raise their right hand and repeat after me?

**HER:** Sure, here's the meaning of the phrase "squaring the circle of a previous wrong, one must turn the other cheek but not on a Friday unless they raise their right hand and repeat after me":

Squaring the circle of a previous wrong means to make amends or rectify a past mistake or injustice. It implies taking responsibility for past actions, learning from them, and working to prevent similar mistakes from happening in the future.

Turning the other cheek is a metaphor that means to forgive or show compassion to someone who has wronged us, rather than seeking revenge or retaliation. It implies that we should not return evil for evil, but instead, try to overcome evil with good.

The phrase "not on a Friday" suggests that there may be certain limitations or restrictions on when we can turn the other cheek or square the circle of a previous wrong. Perhaps there are certain circumstances where it is not appropriate or practical to forgive or make amends, such as in cases where there is an ongoing threat or danger.

The phrase "unless they raise their right hand and repeat after me" suggests that there may be certain conditions or requirements that must be met before we can truly move forward and put the past behind us. Perhaps there are certain steps that must be taken, such as acknowledging wrongdoing, apologizing, or making restitution, before we can truly move forward.

Overall, metaphorically, "squaring the circle of a previous wrong" and "turning the other cheek" have related meanings, but they are not exactly the same thing. The first phrase refers to making amends for past mistakes, while the second phrase refers to forgiving those who have wronged us and choosing to respond with kindness and compassion. The addition of "not on a Friday" and "unless they raise their right hand and repeat after me" suggests that there may be certain limitations or restrictions on when we can turn the other cheek or square the circle of a previous wrong.

**End to End Time: 4.37 s**

*Is this a future you really want? YOU BE THE JUDGE...* Is this a record shop from the past or a record shop in AI's /Sydney's MIND?

Can you remember those albums? Yes, they look like the Doobies, Frampton, Bangles, and Doors but are they? Look at the angle of the bar to the needle to the record. You need to train yourself to determine what is real and what is not. Is this real? Can you *feel* it just by a *glance*?
